Pringle Herbarium

G. P. BURNS, DIRECTOR
L. H. FLINT, CURATOR

University of Vermont

BURLINGTON, VT., U. S. A.

July 25th, 1921.

Miss Mary Day
Gray Herbarium
Harvard University
Cambridge, Mass.

My dear Miss Day -

I have been thinking that you might like to complete your records of the Pringle collections in Mexico, and in return for your kindness in allowing Mrs. Flint to use your numerical list we have prepared a 'list of missing'. We do not pretend to know anything about the proper nomenclature, the most recent usage, etc., so please do not object to the inclusion of names which seem to you obsolete. In a short while we expect to send out a first list of Pringle's Mexican Plants to various Institutions in the hope of obtaining an authoritative revision.

Very truly yours -

Lewis H. Flint

P.S. Mrs. Flint wishes to be remembered to you. LHF.
